**DESCRIBE YOUR PRACTICE, STAFF, PATIENTS, COMMUNITY, AND PRACTICE PHILOSOPHY AND THE BEST STRENGTHS AND WORST WEAKNESSES OF YOUR PRACTICE:**

My staff has been with me all 33 years that I have practiced here-they are like family. My staff and I can tell you a little about each patient in our practice. Patient demographics range from some of the wealthiest families in N.C. to some that have very little. They are all treated with the same respect and courtesy.

We charge very little to our senior citizens and some of those who we know have hardships--nothing. The same with friends and church members. Our bottom line production & collections would be much higher consequently but my staff and I understand there is more than just meeting production goals.

I have not been the greatest business manager (I've never looked at a report until this valuation) but I think we have a "successful" practice. Our treatment may not be "ideal" dentistry but we try to meet the immediate needs. I have performed almost all repairs and I.T. work myself so this may show up as expense in next owner. The person who purchases this practice needs to be a part of this community, to interact with our patients and be flexible in meeting their needs. An oral surgeon who I refer to told me this week he knows when patients come from our practice because they are always so nice and easy to work with. That is true and I think reflects on how we have tried to treat each one as family. My staff has certainly been loyal and is second to none.
